

Infant/Family Music Classes

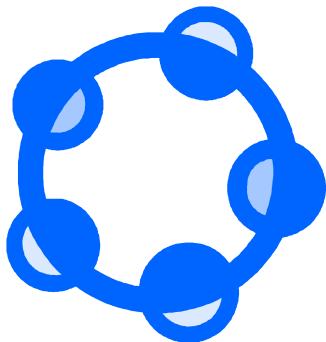

Research has proven exposing children to music at an early age accelerates the development of the whole child. This exciting 5 week class is designed to stimulate that development, as well as the parent/ child bond. Activities include singing/chanting, listening, playing instruments, and movement. Curriculum is adjusted for varying age groups. Material is drawn from the child's everyday environment, with an emphasis on nature. Each child in attendance needs to be enrolled. At home CD packet is required.
